

DESCRIPTION

Hand carved in Cameroon using century-old techniques. All of our Spider Stools are produced by the royal family of the Bamoun people. Carved from the trunk of coffee shade trees, which are brought down at the request of the farmer when they become overgrown. The creation of this stool brings artisans and agriculture together to enrich one another. The pattern speaks of their creation story where it was the female spider who wove the web which caught creation.

DETAILS

- Culture: Bamoun People
- Geography: Cameroon
- Circa: Contemporary
- Weight: 15LBS
- Materials: Wood

SIZES

- FSS0052.....16.5”D x 16”H
- FSS0053.....17”D x 17.5”H

LIST PRICING

- FSS0052.....00401
