

FUFU STOOL | HANDCRAFTED STOOL

FUF0023, FUF0001, FUF0003

DESCRIPTION

The Fufu is an artfully conceived whimsical stool. Its hand carved wood base is fashioned with luxuriously soft mongolian sheep skin. Design is the study of relationships more than anything else.

It is always interesting to see the relationship of objects to their surroundings and that is what gives the Fufu Collection the element of surprise and delight.

Design: Fida Nehme
